Mr. Steve Wisness
Hanford Project Manager
U.S. Department of Energy
P.O. Box 550
Richland, Washington 99352

Dear Mr. Wisness:

RE: Hanford Ground Water Data Base

On October 24, the Department of Ecology formally requested that remote access to the Hanford Ground Water Data Base be made available. In fact, Ecology has an immediate need to utilize information stored within this system; e.g., data associated with 183-H, 2101-M pond, and numerous units within the 200 areas including the single-shell tanks.

Please note that I and Program staff are increasingly concerned that continued delays in receipt of these data could result in missed deadlines, and could impede timely implementation of the Hanford Federal Facility Agreement and Consent Order. Discussions with my staff indicate that there was a consensus among all participants at previous meetings that no substantive reasons exist which warrant continued caution, extended review, and cost analysis. I am consequently asking for your assistance in ensuring that activities to establish remote access progress more rapidly.

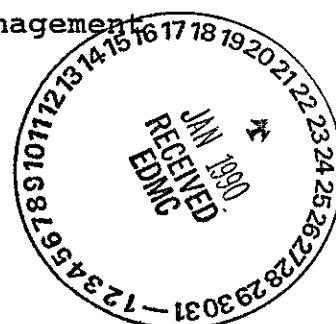

I am also requesting that a final decision be made on providing Ecology access by telephone modem prior to January 19, 1990, and that such access be accomplished no later than February 9, 1990.

Technical inquiries concerning this and other data management issues affecting the Hanford Agreement may be addressed to Travis Young at (206) 438-7695. Your time and effort in this matter is appreciated.

Sincerely,

Roger Stanley
Program Manager
Nuclear and Mixed Waste Management
